

PERIODICAL BOOK

The Technical Library is pleased to present the 2004 edition of our Periodical Book.

LOCATIONS

All periodicals are shelved at the Technical Library, Building 02496, unless the holdings are preceded by this symbol "ML-". This means that title is shelved at the Michelson Laboratory Research Service Center (RSC), Room 125A. There is also an alphabetical RSC list in the front of the Periodical Book. Each title on this list is followed by a number that corresponds to the maps posted in the RSC. The maps make it easier to find the right section of shelving quickly. Some titles with very low usage have been marked "*Moved to storage.*" Contact the reference desk to have these journals retrieved.

SHELVING

All periodicals are arranged on the shelves in the same order as they appear in the alphabetical list unless otherwise noted in the entry. Periodicals issued by an association, society, institution, or other group are listed and shelved under the name of the association if the name appears in the title. For example, *Journal of the American Chemical Society* is listed and shelved as *American Chemical Society, Journal*.

TITLE CHANGES

If a periodical title has changed, the title change will be indicated immediately following the listing of the holdings of the original title.

HOLDINGS

Volume numbers and dates listed after each title indicate library holdings of the title. A dash after the date means that the set runs continuously from the date, and the title has an current subscription.

ASSISTANCE

Please feel free to ask the library staff to assist you. You may phone us at
(760) 939-3389. DSN 437-3389
